PROJECT PROPOSAL & STATEMENT OF WORK (SOW)

PROJECT OVERVIEW

The objective of this project is to design and deploy a professional, secure, and scalable web platform that serves as the official digital presence of the club. The platform will showcase club history, achievements, tournaments, facilities, and gallery content, while providing role-based administrative control for coaches and staff.

SCOPE OF WORK

Public Website

- Home page with motto, journey timeline, achievements, tournaments, and ground images
- About page with club overview, mission, coaches, facilities, and rules
- Gallery for matches, training, and facilities

Admin & Management System

- Secure login with role-based access (Super Admin, Admin)
- Player and tournament management
- Admin hierarchy and governance
- Excel (.xlsx) data export capability

Deliverables

- Fully responsive website (desktop, tablet, mobile)
- Admin dashboard with role-based permissions
- REST API backend and database schema
- Deployed production environment
- Basic technical and admin documentation

Technology & Architecture

- **Frontend**: ReactJs,Tailwindcss
- **Backend**: Express,REST API (Node.js)
- **Database**: MongoDB
- **Hosting**: Cloud/VPS infrastructure
- **Security**: JWT based authentication
